

Technical and Commercial Coordinators

Role of the Technical and Commercial Coordinators of the "Manufacturers Pool"

Coordination and development

- of the various Technical Commissions of the Pool
- of the contact with the various manufacturers

They have above all a technical and commercial role, and their mission is to develop the Ski Mountaineering of competition in Europe, and in the world.

Through a work based on:

- contact establishing
- thoughtful analysis, exchanges and communications

- ⇒ with the commissions of the pool
- ⇒ with the manufacturers
- ⇒ with the ISMF "Rules Commission"
- ⇒ with the members of the Management Committee
- ⇒ with the members of the Board
- ⇒ with the ISMF President

- close relation and exchanges with the Technical Director of the ISMF.

Make the Manufacturers Pool to evolve by:

- 1/. Increasing the number of registrations of manufacturers
- 2/. Finding solutions to attract more manufacturers to the ISMF pool
- 3/. Helping the development of the communication, before the public and the media, about the manufacturers

Obligations:

- participate and encourage the annual meeting of the pool
- inform systematically the Technical Director of the ISMF, about all steps and results concerning the manufacturers.
- keep in touch with the manufacturers during the whole season, especially with the delegate of the manufacturers, in order to keep them informed about the news and/or decisions taken by the Board and/or the Management Committee.
